	Aspirations for Neston Town Hall	**59**

Aspirations for Neston Town Council

On 28th September 2023, various members of Neston Town Council held a joint online meeting with Cheshire West & Chester Council to discuss the town's assets.

The outcome from this meeting was a positive one, the forum was re-opened for Neston Town Council to be at the forefront of mapping out a potential long-term future for Neston Town Hall itself, in partnership with CW&C.

Neston Town Council has been invited to engage and submit a broad proposal to Cheshire West & Chester Council, this autumn, for the future development of the Town Hall.

Therefore, Neston Town Council has been asked to create a starter concept initiative to show engagement and commitment on the Town Council's part for this project.

This concept will be discussed further in Part 2.

Recommendation:

1. That Neston Town Council agrees to start exploring broad concepts for the Town Hall.

2. That and the Town Council envisages the venue to be a busy and popular community-based destination which would encapsulate exhibition and performance space.
