	SCHOOL LANE: PROPOSED 20MPH SPEED LIMIT	CE6/71

The attached plan shows the area under consideration for a reduction in speed limit from 30mph to 20mph, the purpose of which is to reduce the danger to pedestrians and drivers.

Before Highways proceeds further with obtaining permission to advertise the legal documents required to formally consult, the Engineer for the Ellesmere Port and Neston area has asked if Neston Town Council has any comments to make.

Committee members will wish to consider the proposal and agree a suitable response to Highways.

Audrey Duncan
Community & Environment Manager
