	<i>Date</i>	4 February 2025
	<i>Document</i>	<i>Ref No</i>
	Railway 200	CE7/90

Railway 200, which has been devised to mark the 200th anniversary of the birth of the modern railway, will be a year-long, national and international commemoration celebrating the impact of the railways on our nation's heritage, economy and future. The centrepiece will be an exhibition train that will travel across the country visiting mainline stations, heritage railways and freight depots.

Neston Town Council has followed Railway 200 on social media and will be sharing any relevant posts. We have also shared information about the project with Friends of Hadlow Station and we will promote any events that they decide to hold during the course of the year.

Members will wish to decide whether anything further is required in support of this project and, if so, to agree the detail.

Audrey Duncan
Community & Environment Manager
