

## **Heritage: Procedure for Recording Significant Local Events**

An excellent resource for local historical information has been created by Burton & Neston History Society (Neston Past). Neston Town Council will complement this resource by offering a facility to capture for posterity details of recent and future local events. These records will be made freely available to all.

In order to achieve this objective, an online space will be created via the Town Council's website where the Town Council can record significant events and also offer local groups and individuals the opportunity to submit information for uploading. This record will be both publicly available and searchable and any content considered to be of particular significance will be copied to Cheshire Archives & Local Studies for inclusion in the county record.
