	Speed Limit Alteration Proposal		FC6/75

Neston Town Council has been approached to comment on a proposal to extend the 40mph speed limit on Liverpool Road from across the border with Wirral, linking up with the existing Chester High Road speed limit of 40mph.

Background information received from CWaC Engineer:

"We have recently been in discussion with officers from Wirral MBC who are proposing to implement a 40mph speed limit on their section of Liverpool Road from the County boundary and as a result we are now proposing to work collaboratively and extend this proposal through from the County boundary to the existing 40mph limit on the A540 Chester High Road junction as shown on the attached plan.

"Before I move onto the next stage of obtaining approval to advertise the scheme and commencing the public consultation exercise, I would be grateful to receive your members views on the reduction and if you could advise before the 21st of March, it would be appreciated. If I do not hear from you by this date, I will look to proceed with obtaining the formal approval."

A map detailing the proposed plans is attached as an appendix to this report.

Council is asked to provide feedback on the proposed speed limit reduction.
